FP quarterly figures characterized by positive external effects

Total revenue in the first three months of 2025 increases by 4.0% to EUR 45.4 million compared to EUR 43.7 million in the same period of the previous year; positive exchange rate effects of EUR 0.4 million; revenue from the former Mail Services division no longer included in the previous year.

Mailing & Shipping Solutions division: revenue increase by 2.7% to EUR 38.1 million compared to EUR 37.1 million in the same period of the previous year; positive special effect on revenue of EUR 2.3 million due to the postal rate change in Germany.

Digital Business Solutions division: revenue increase by 11.8% to EUR 7.3 million compared to EUR 6.6 million in the same period of the previous year; continued double-digit growth in SaaS-based solutions; increase in output management due to higher customer activity and postal rate increase.

EBITDA increases to EUR 8.7 million after EUR 5.8 million in the same period of the previous year; EBITDA margin at 19.2% (previous year: 13.2%).

Forecast for 2025 confirmed: Revenue expected to be between EUR 165 and 175 million and EBITDA between EUR 20 and 27 million.

Overall statement:

FP records revenue growth and benefits from positive special effects in the first three months of 2025

As expected, the FP Group recorded positive revenue and earnings development in the first three months of 2025 and generated positive free cash flow. This development is based on the cost reduction measures as well as positive effects from the postal rate increase (EUR 2.3 million) in Germany and positive exchange rate effects. In the first three months, the company generated total revenue of EUR 45.4 million compared to EUR 43.7 million in the same period of the previous year, which was adjusted due to the sale of freesort GmbH. There were positive currency effects of EUR 0.4 million in the first quarter of 2025. EBITDA also developed positively in line with revenue at EUR 8.7 million compared to the previous year's level of EUR 5.8 million. The company benefited from the postal rate increase and the corresponding adjustment of postal rate tables in Germany. The EBITDA margin rose to 19.2%. Free cash flow fell to EUR 6.2 million compared to EUR 9.1 million in the same period of the previous year due to a decline in cash flow from operating activities. The previous year benefited from one-off tax refunds abroad for prior-year periods in the amount of EUR 3.5 million.

For FP, the course of the financial year to date has been characterized by a number of positive special effects, while the overall economic and sector-specific situation in the operating area remains challenging, particularly due to US customs policy. This development shows that FP must press ahead with its transformation. The focus is on strengthening the value drivers in the business divisions, flanked by the adjustment of cost structures and strict cash flow management.

Revenue in the Mailing & Shipping Solutions division rose by 2.7% to EUR 38.1 million in the first three months of 2025 (prior-year period: EUR 37.1 million). In addition to the aforementioned special effects from the postal rate change in Germany, positive currency effects were also recorded here. In the largest foreign market, the USA, the uncertainty caused by the announcement of customs measures is already making itself felt. Even though there were no direct effects from the US tariffs in the first quarter, dealers are already showing signs of reluctance to place new orders.

The Digital Business Solutions division recorded an 11.8% increase in revenue to EUR 7.3 million in the reporting period compared to EUR 6.6 million in the same period of the previous year. Output management benefited from both the onboarding of new customers and the postal rate increase at the beginning of the year. SaaS-based solutions recorded growth of 11.5% compared to the same period of the previous year. This growth was slightly weakened by the decline in the De-Mail segment. In contrast, FP Sign and solutions for e-justice communication recorded above-average growth.

The Mail Services division, which handles the collection, franking and consolidation of business mail, was discontinued with the sale of freesort GmbH as at September 30, 2024. The previous year's figures have been adjusted accordingly. In future, the FP Group will focus on the Mailing & Shipping Solutions and Digital Business Solutions divisions with the aim of driving forward the transformation of the FP Group.

Earnings situation:

EBITDA increased significantly, mainly due to special effects from the postal rate change

The FP Group generated EBITDA of EUR 8.7 million in the first three months of 2025 compared to EUR 5.8 million in the same period of the previous year. The EBITDA margin was therefore 19.2% (same period of the previous year: 13.2%), boosted by the effect of the postal rate change in Germany. There were also positive exchange rate effects of EUR 0.3 million. The earnings trend was positively influenced to a large extent by the increase in revenue resulting from the postage increase and by cost reductions.

The cost of materials fell by 3.9% to EUR 14.7 million in the first three months of 2025 (same period of the previous year: EUR 15.3 million), primarily as a result of the decline in expenses for raw materials, consumables and supplies.

Employee benefit expenses fell slightly by 0.3% to EUR 15.4 million compared to EUR 15.5 million in the same period of the previous year.

Other operating expenses decreased by 6.3% year-on-year to EUR 8.4 million in the first three months of 2025 compared to EUR 8.9 million in the previous year. This was due to the decrease in IT costs due to the discontinuation of the ERP project as well as freight and other costs.

Amortization, depreciation and impairments decreased by 5.6% to EUR 3.6 million in the first three months of 2025 compared to EUR 3.8 million in the same period of the previous year. This was primarily due to the decrease in amortization of internally generated intangible assets.

Net interest income decreased significantly by EUR 0.6 million to EUR 0.3 million in the first three months of 2025. This was due to the lower interest expenses to banks and the interest income from tax refunds received in the previous year.

Income tax expenses amounted to EUR 1.4 million in the first three months of 2025 (previous year: EUR 1.2 million).

Consolidated profit from continuing operations after taxes amounted to EUR 3.3 million compared to EUR 2.1 million in the same period of the previous year. Consolidated profit from discontinued operations after taxes amounted to EUR 0.0 million compared to EUR 0.5 million in the same period of the previous year.

Revenue with freesort in the Mailing & Shipping Solutions and Digital Business Solutions divisions are still included in consolidated sales, as these are part of the continuing operations.

As a result, consolidated profit increased by 27.7% in the first quarter of 2025 and amounted to EUR 3.3 million compared to EUR 2.6 million in the same period of the previous year. Earnings per share (EPS) thus rose to EUR 0.21 compared to EUR 0.17 in the same period of the previous year.

Financial position and net assets:

Positive free cash flow in the first three months of 2025

The FP Group is focusing on cost control and liquidity management in order to sustainably secure its strategic and operational goals. At EUR 7.7 million, operating cash flow after three months of 2025 was below the previous year's level of EUR 11.6 million. The prior-year period benefited from one-off tax refunds abroad for prior-year periods in the amount of around EUR 3.5 million. Cash flow from investing activities amounted to EUR -1.5 million in the first three months of 2025 compared to EUR -2.5 million in the same period of the previous year.

Overall, free cash flow of EUR 6.2 million was generated in the first three months of 2025 after EUR 9.1 million in the same period of the previous year. The positive cash flow from operating activities is a key source of financing for the FP Group. In addition, there are existing credit agreements with financial institutions and finance lease agreements. The FP Group's non-current financial liabilities decreased slightly to EUR 14.9 million as at March 31, 2025 compared to EUR 15.2 million as at December 31, 2024. Current financial liabilities also decreased to EUR 3.1 million compared to EUR 3.2 million at the end of 2024. The FP Group's cash and cash equivalents increased to EUR 31.5 million at the end of the first quarter of 2025 (December 31, 2024: EUR 26.3 million). The FP Group's net debt improved further to EUR -13.5 million (net cash position) as at the reporting date of March 31, 2025 compared to EUR -7.9 million as at December 31, 2024. The equity ratio improved slightly to 30.6% compared to 30.2% at the end of 2024.

Opportunities and risks:

The FP Group has explained the risks and opportunities in detail in the combined management report for the 2024 financial year. The 2024 Annual Report is available online at <https://www.fp-francotyp.com>. In the reporting period, there were no significant changes to the opportunities and risks described in the combined management report for the 2024 financial year.

FP confirms forecast for 2025:

Business development in 2025 will continue to be influenced by the difficult macroeconomic conditions. The reliability of the forecast is impaired in particular by the new US administration's tariff policy measures, which could lead to serious distortions in the global economy that would also affect FP. In particular, the direct effects in FP's largest market, the USA, are currently very difficult to assess. In addition, market-specific developments in the postal market remain challenging. The Management Board therefore expects the Group to generate revenue of between EUR 165 and 175 million in the 2025 financial year. EBITDA is expected to be between EUR 20 and 27 million. The FP Group is focusing on the Mailing & Shipping Solutions and Digital Business Solutions divisions with the aim of driving forward the transformation of the FP Group.

The expected development of the financial performance indicators for the 2025 financial year is generally based on the assumption of constant exchange rates.

Further information about FP

Francotyp-Postalia Holding AG, a listed company based in Berlin, is the holding company of the globally active FP Group (FP). FP is an expert in solutions that make office and working life easier and more efficient. FP has two business divisions: In the Mailing & Shipping Solutions division, FP is the world's third-largest provider of mailing systems and the market leader in Germany, Austria, Scandinavia and Italy. In the Digital Business Solutions division, FP optimizes customers' business processes with solutions for document workflow management, business process management & automation and shipping management & logistics. FP is represented in 15 countries by its own subsidiaries and in many other countries via a dealer network. The Mail Services division was sold in 2024. In 2024, FP generated adjusted revenue of around EUR 170 million.
